## Dr Alex Guerrero

Dr. Guerrero began his journey, which lead him through post-graduate studies at the SAMRA University for Traditional Chinese Medicine in Los Angeles, California, where he received his Doctorate Degree in Traditional Chinese Medicine.

During his internship he saw patients of every background, creed, and color; with almost every ailment known to man. At that time the clinic was inundated with AIDS patients, cancer patients, and people with several other degenerative diseases. Upon graduating, he continued to study, research, and read with regard to degenerative diseases. His private practice was and is a diverse group of individuals. Many are what he calls "internal" patients. These are people with various degenerative and chronic ailments. He has treated PMS, fibromyalgia, cancer, prostate problems, diabetes, lupus, chronic fatigue syndrome, arthritis, and many other diseases.

The other part of his practice involves his athletes. Some of the athletic teams and institutions he has worked with or is currently working with include: L.A. Lakers, San Francisco 49ers, New England Patriots, Dallas Cowboys, Oakland Raiders, San Diego Chargers, Miami Dolphins, U.S. Track and Field Team, Hungarian Track and Field Team, Jamaican Track and Field Team, Canadian Track and Field Team, USC, UCLA, Fresno State, Oregon State, Stanford University, Washington University, and San Diego State.

Through working with his athletes, he developed techniques involving deep tissue therapy, neuromuscular re-education, active release therapy, neurolymphatics and kinesio-taping in addition to developing treatment plans and education for Trinidad/Tobago National Soccer Team and the West Indies Cricket Team.

In the process of treating all of his patients, he sought for supplements that would increase health and wellness in all individuals and also wanted products which would improve athletic performance in his athletes. Finding nothing on the market that would satisfy his or his patient's needs, he began to use his extensive knowledge in herbology to develop his own formulations. With the knowledge that the soil used to grow our food has been stripped of vital minerals and nutrients, he believes that supplementation has become an essential part of our lives. However, not all supplements are created equal. With the scientific knowledge that all living matter has energy, Dr. Guerrero developed products that retain their life force, thereby improving the body's

ability to absorb vital nutrients. This knowledge has taken him around the world lecturing on health and wellness to many thousands of individuals.

Dr. Guerrero asserts, "all disease is in the blood and over-acidification of the blood and tissues is the primary contributor to disease and sickness." To increase health and wellness in our society, he has made his exclusive formulations available to the public. Now, everyone can share the passion of Dr. Guerrero's life work by energizing, rejuvenating, and nourishing your body with Health Solutions™ products.

### **Dr Alex Guerrero and Green Barley**

Dr Alex Guerrero became involved in the research of green barley grass when because his father-in-law died from skin cancer in February 1991. After three years of treatments and surgeries, his father-in-law lost his right arm, his right shoulder blade, his right collar bone, a couple of ribs, part of a lung, but most importantly, he lost his dignity. He suffered through all the traditional medical treatments, and still succumbed to the cancer in the end.

It was then that Dr. Guerrero decided to pursue his studies and get his doctorate degree in Traditional Chinese Medicine. His patients came from every ethnic background and socioeconomic class under the sun. They all were suffering in some way from illnesses and diseases that he believed could be totally preventable.

### **His Theory on Illness and Disease**

Dr Alex Guerrero believes that "all disease is in the blood and over-acidification of the blood and tissues is the primary contributor of disease and sickness. This disturbs the central regulation of the human body--unbalancing it, causing sickness, disease, and pain." This is why he believes that green barley supplements can help ward off disease. . . it is a complete nutritionally balanced food that is alkaline in nature, thus aiding our bodies by changing our pH level from highly acidic to a more alkaline state.

Dr. Guerrero believes that by introducing barley green into our diets, and by consuming a healthy diet full of raw fruits and vegetables, we can actually resupply our body with energy. When the body's energy supply is optimal, we are better able to perform and avoid sickness. Our immune

### Supreme Greens with MSM

Supreme Greens with MSM™ formula is a powerful Mega-Food formula of organically grown grasses and vegetables, sprouted grains, blood purifying and immune enhancing herbs, and antioxidants. The Supreme Greens formula is synergistically blended with MSM (MethylSulfonylMethane), to enhance and preserve the radiating life of each ingredient.

the radiating frequency of each ingredient. Supreme Greens with MSM™ is alkaline helping to balance your body's pH level, while providing you with vitamins, minerals, amino acids, and plant proteins you need for proper cell regeneration.

The need for supplementation has never been greater than it is today. Our foods simply do not have the same nutritional value of years past. Plants and vegetables absorb 67 vitamins and minerals from the soil. However, a typical farmer will add only 3 nutrients back into his farming soil. Over time, this practice creates a huge nutritional deficiency in our daily diets. Supreme Greens with MSM™ helps you overcome this deficiency by providing you with the nutritional equivalent of 2 lbs. of fresh vegetables in every serving.

The body continuously regenerates new cells. Skin cells are regenerated on cycles, while bone cells are regenerated on 120 day cycles. If our cells do not proper nutrition, then they fall into a state of degeneration, which we know. Proper nutrition means you provide your body with the necessary vitamins, amino acids, and proteins. Also, the nourishment given to the body needs to minimum resonating frequency of 70 Megahertz. Typical American diets range above 50 Megahertz and most supplements have a standard frequency of 0 Megahertz. However, Supreme Greens with MSM™ resonates at an astonishing Megahertz.

Dr. Alex Guerrero asserts, "all disease is in the blood and acidification of the blood and tissues is the primary contri disease and sickness." Yeasts, fungus, molds, bacterias, an need an acidic environment to thrive and grow. Modern c and lifestyles are conducive to such proliferation and grow. Supreme Greens with MSM™ is naturally alkaline to help balance pH levels for greater health and wellbeing.

Supreme Greens with MSM™ is available in capsules a

## Dr. Alex Guerrero

In February of 1991 Dr. Guerrero's father-in-law died of skin cancer after three years of treatment and surgeries. During those three years his father-in-law lost his right arm, right shoulder blade, right collar bone, a couple of ribs, part of a lung, most importantly his dignity. Dr. Guerrero decided then and there that there must be a better way to live. So began his journey, which led him through post-graduate studies at the SAMRA University for Traditional Chinese Medicine in Los Angeles, California, where he received his Doctorate Degree in Traditional Chinese Medicine.

During his internship he saw patients of every background, creed, and color; almost every ailment known to man. At that time the clinic was inundated with patients, cancer patients, and people with several other degenerative diseases. After graduating, he continued to study, research, and read with regard to degenerative diseases. His private practice was and is a diverse group of individuals. Many of what he calls "internal" patients. These are people with various degenerative chronic ailments. He has treated PMS, fibromyalgia, cancer, prostate problems, diabetes, lupus, chronic fatigue syndrome, arthritis, and many other diseases.

The other part of his practice involves his athletes. Some of the athletic teams and institutions he has worked with or is currently working with include: L.A. Lakers, San Francisco 49ers, New England Patriots, Dallas Cowboys, Oakland Raiders, San Diego Chargers, Miami Dolphins, U.S. Track and Field Team, Hungarian Track and Field Team, Jamaican Track and Field Team, Canadian Track and Field Team, UCLA, Fresno State, Oregon State, Stanford University, Washington University, and San Diego State.

Through working with his athletes, he developed techniques involving deep tissue therapy, neuromuscular re-education, active release therapy, neurolymphatic massage, kinesio-taping in addition to developing treatment plans and education for the Trinidad/Tobago National Soccer Team and the West Indies Cricket Team.

In the process of treating all of his patients, he sought for supplements that would increase health and wellness in all individuals and also wanted products which would improve athletic performance in his athletes. Finding nothing on the market that would satisfy his or his patient's needs, he began to use his extensive knowledge of herbology to develop his own formulations. With the knowledge that the soil used to grow our food has been stripped of vital minerals and nutrients, he believes that supplementation has become an essential part of our lives.
